DPF-20KS

PRODUCT DESCRIPTION

20" Digital Photo Frame

NARRATIVE

The DPF-20KS is a 20 inch 4:3 size Active Matrix TFT LCD Digital Photo Frame for you to showcase your favorite images. This digital photo frame is compatible with JPEG, MP4, DivX, AVI, MPEG1-2-4, WMA, WAV formats. Besides your pictures, you can also view movie clips that have been taken with your camera, even play music in the background. The standard Five-in-one Card Reader supports CF/XD/MS/SD/MMC cards. In addition, there is also a USB 2.0 connection for maximum compatibility. With the built-in stereo speakers, you don't need any extra cables to plug an external speaker. There is no complex setup required. Plug the adapter to DPF-20KS and you are ready to go!
