

NESA

PRODUCT CODE

SPYPEN-4G

PRODUCT DESCRIPTION

Spy pen camcorder

NARRATIVE

This 4GB Spy Pen contains the smallest DVR in the world. This 4GB Spy Pen will capture up to 6 hours of video. Super-sensitive microphone can record within a range of 15 square meters. It is capable of recording 352 x 288 resolution video @ 25fps. It writes like a normal pen and it uses replaceable and environmentally-safe ink cartridges. Built-in rechargeable lithium-ion battery can work for 2 hours. Use it as a voice recorder or as a thumb drive to move files across.
