

**PRODUCT CODE: DVR-7000**

**BARCODE: 9332820004441**

**PRODUCT DESCRIPTION:** 2.5" HD Windscreen DVR drive recorder with IR

**NARRATIVE**

It's a jungle out there on the roads more so than ever before. Traffic congestion is at an all time high so accidents are bound to happen. Protect yourself, your license & your no claim bonus with the very latest in mini digital video recorders.

The DVR-7000 is an advanced drive recorder with an HD lens that records to a SD for playback either on a PC or on the built in screen. The smart design & small size makes for easy installation, simply stick it to your windscreen & power it from a 12v or 24v cigarette lighter.

The DVR-7000 will record all the action ahead with its ultra wide angle lens. It is able to record video & audio footage showing road, weather & traffic conditions onto the removable memory card.

The device supports class 6 or above up to 32GB SD cards for up to 48hrs of auto looped footage that can be played back on any PC or copied, stored or emailed for future reference. The system will autosave in 15 min blocks or at the touch of a button.
