

## PRODUCT CODE

**NSR-CL45BT**

## PRODUCT DESCRIPTION

*Clip on reverse mirror with 4.5" screen & bluetooth car kit*

## NARRATIVE

The integration of a Bluetooth car kit to a mirror screen combo gives not only space saving benefits but also makes the installation much simpler. The screen features 2 RCA inputs with the 2nd input triggered by reverse gear, allowing for the perfect integration with a NESA reversing camera.

The bluetooth feature gives seamless integration with your Bluetooth phone & with the built in speaker & integrated microhone, along with features such as voice dialling & calling number display add to the appeal of this slimline clip on model, making it ideal for vehicles with limited mounting space.
