

Install Option for the Active X control on IE

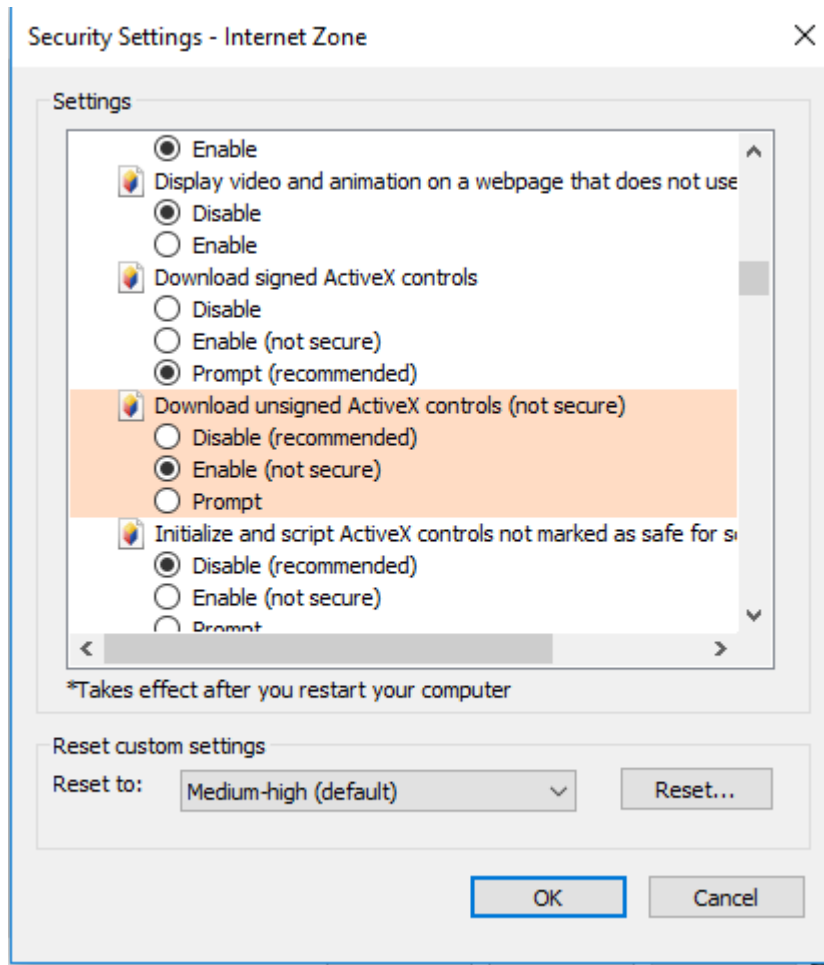

1. Open IE Browser go to Setting click on Internet Option.

2. Open Internet Option Window. In this window click Security Tab. In Security Tab Click on Custom Level Button.

3. In Security Setting Window Enable 'Download unsigned ActiveX Control (not Secure)'.

4. After this setting open Fleetfinder Tracking API in IE browser.
5. Select any MDVR Device then select '**Live Streaming Video**' from Vehicle Menu (Streaming Video).

6. After Open '**Live Streaming Video**' screen ask for install ActiveX. Please click on install button.

Internet Explorer blocked this website from installing an ActiveX control. What's the risk? [Install](#)

Follow these step to install ActiveX control.

Note: After this process refresh your FM API and open live stream video to view.

Live Streaming Video Screen:

The screenshot displays a live streaming video screen for vehicle tracking. The interface is divided into several sections:

- Tracking Sidebar:** Contains a search bar, vehicle list, and a 'Daily Activity Log' table.
- Vehicle List:** A table with columns for Vehicle, Driver, Date, Time, and Speed. It lists vehicles like 'COMMON', 'PERTH Driver', and 'NSW Driver'.
- Daily Activity Log:** A table with columns for Event, Time, Ign, Speed, Trip, and Location. It shows a detailed log of vehicle activity for 'PERTH Driver' on 01/03/2018.
- Main Map:** A satellite view map showing the current location of the vehicle, marked with a red dot and a yellow label 'gamm0271'. The map includes street names and a 'Current Location' label.
- Video Feeds:** Four video feeds are displayed in a 2x2 grid at the bottom. Each feed shows a blue background with a white, abstract, wavy pattern.

Vehicle	Driver	Date	Time	Speed
COMMON				
PERTH Driver	gamm0271	01/03/2018	15:21:35	0.00
